Decision Science

Project Setup

Statistical Inference

Linear Regression

Logistic Regression

CHALLENGES

1 - Logit

2 - **CEO request**

3 - Flashcards   All done!

P&L and GeoPandas   recap

RESOURCES

Lecture

Communicate

CEO request

Kick-start terminal instructions

```
# Create challenge folder
mkdir -p ~/code/WLaCoutur/04-Decision-
Science/04-Logistic-Regression/data-
recap_ceo_request && cd $_

# Download challenge
curl -s -H "Authorization: Token
                            ,
User=WLaCoutur" "https://
kitt.lewagon.com/camps/1917/challenges/
setup_script?path=04-Decision-
Science%2F04-Logistic-Regression%2F02-
CEO-request" | bash

# Open challenge folder in your text
editor
code .
```

ℹ️ Kitt no longer picks up Github pushes two weeks after camp has finished.

🐞 Report an issue

🏋️ This is the final challenge of the week (you have until the end of the Communicate topic to complete it).

Before diving into it, take time to finish the challenge 02 on sellers analysis (Linear Regression topic).
